Europe Fest Checklist

The following is a list of tasks that we will be working on as we learn about the countries of Europe. Each task will need to be completed by it assigned due date. Any work that is turned in after the due date will be docked 20%, as per the class disclosure document. Please keep this checklist so that you may track your work and your scores.

20pts — **Continent Map:** Label and color your country with **one** color. Using **a different color**, label and color every country that borders your country. If your country is an island country you label the closest surrounding countries and oceans or seas. You should have a total of 2 colors on this map when it is complete. (See your teacher's example in your classroom).

30pts — *__Physical Map:__* Find a map of your country in a book or on the computer and trace it. Your country needs to be at least 6 inches by 6 inches on a regular sized piece of paper. Label and color the major geographical features of your country, such as mountains, mountain ranges, lakes, rivers, glaciers, deserts, etc.. **You will need to have a key** on your map telling what each color represents. (See your teacher's example in your classroom)

30pts — *__Political map:__* Locate and label capital cities (mark capital cities with a star), major cities, providences, territories, state boundaries (depending on your country), and other important, prominent sites. **Include a key with symbols** that represent each site. Color the country with one light color. (See your teacher's example in your classroom).

*Note: Xerox and computer-generated copies of maps **will not be accepted.** We as teachers feel it is more beneficial for the students to create their own map than simply printing a map for this particular assignment.

25pts — **Venn Diagram:** Research you country and then create a Venn diagram comparing your country and the United States. This diagram will be generated using Google Slides and not hand drawn. Items to compare will come from a list of topics given to the class by the teacher. This will be turned in by sharing it with the teacher.

25pts — **Article & Worksheet:** Research your country and then create a 1-page article about your country. This must be 1-page of text. The article should contain interesting facts about your country. Then create a worksheet that will go along with the article. The answers to the worksheet will need to come from the article. This will be turned in by sharing it with the teacher.

20pts — **Puzzle:** Come up with 20 **unique** words (not names of people) that are from or used in your country. Then create a crossword or word-search puzzle. This will be created using a puzzle maker website. This will be turned in by sharing it with the teacher.

30pts

Travelers Pamphlet: Research your country and then create a travel brochure that promotes all the wonderful things to do in that country. This will be a 3-fold pamphlet with writing and pictures on both sides. This will be created using Google Slides. It will include graphics, pictures, clip art, and such. It will also contain facts and information about possible tourist attractions. This will be turned in by sharing it with the teacher.

15pts

Bibliography: Create a bibliography of all sources used for everything done for the Europe fest experience. The correct way to create a bibliography will be taught in class and in the Library. Any sources used during this project will need to be documented. This will be turned in by sharing it with the teacher.

30pts

Slides Presentation: After researching your country, create a Google Slide Presentation **to be used when you present your country to the class.** This will need to contain at least 5 slides that enhance your presentation. ***Slide presentations are not meant to be read to the class*** Due: Day of your Presentation. These are not meant to be shared with the teacher.**

50pts

Oral Presentation: These presentations are to be told **not read**. Oral presentations will begin by March 25. The last day to give a presentation will be March 31. Be prepared to describe and explain any visual aids that you bring and answer any questions about your country. You have **10 minutes** to <u>entertain</u> and <u>inform</u> us about your country. This ten minutes is for the following:
- Set up
- Clean up
- Food distribution (not required, but if done must be tied to your country)
-                                     Games (not required)
-

Anyone going over time will lose points. If you miss this assigned time you will only receive 25 points for your presentation.

-Typing Font Rules-
Everything, except those items already mentioned, must be typed using font sizes 12 or 14 only. If you use a 12 point font, you may double space. If you use a 14-point font you need to single space. Choose your font wisely. Only Arial, Times, Helvetica, or Comic Sans MS will be accepted. A standard 1-inch margin around your paper is required. Any paper with margins larger than 1 inch will lose points. The text does not include your pictures, diagrams, charts, maps, etc., and should be written so that the reader is interested to read about your country.
Copying word for word out of a book or website is called plagiarism and will result in an automatic zero score.
