

## Narrative Essay

Write a narrative essay about a time you had fun with friends. This doesn't have to be the funniest time you have had with your friends, but it could be. This essay should be five paragraphs long.

Remember, events included should be sequenced, use good transition words/phrases, descriptive details, and superior conventions (punctuation, capitalization, spelling, and organization)

Please use the space below and the back of this page, to brainstorm your ideas, and to map out your essay.
